PORTFOLIO: https://stephenkeenan.github.io/ReactPortfolio/

_____

Front end web developer with a varied professional background in theater, law, and aviation, providing a balance of technical and interpersonal skills. Earned a certificate in Full Stack Web Development from the University of Central Florida Coding Boot Camp. Strong interpersonal and communications skills and the ability to work with a variety of individuals across departments and with the public. Able to pass a Federal background check.

TECHNICAL SKILLS:

Languages:	HTML5, CSS3, JavaScript
Applications:	GitHub, MongoDB, MySQL
Tools:	Bootstrap, jQuery, Node.js, Express.js, React.js

PROJECT EXPERIENCE:

National Park:

Deployed: https://jackparisi.github.io/Group-5-Project-1/

Code: https://github.com/StephenKeenan/National-Park-Finder

Allows users to search for National Parks within all 50 states and the District of Columbia, providing information about park activities, campgrounds, and any current alerts for the park. The app uses HTML5, CSS3, and JavaScript, and utilizes the Open Weather Map data API and the NPS Park API.

Password Generator:

Deployed: https://stephenkeenan.github.io/JavascriptPasswordGenerator/

Code: https://github.com/StephenKeenan/JavascriptPasswordGenerator

Allows users to generate a random password based on criteria they've selected. The app runs in the browser, and features dynamically updated HTML and CSS powered by JavaScript. The password may include upper case and lower case letters, as well as numbers and special characters.

Work Day Planner:

Deployed: https://stephenkeenan.github.io/DatePlanner/

Code: https://github.com/StephenKeenan/DatePlanner

Allows users to save events for each hour of the day, and indicates both the current hour and future time blocks. The app runs in the browser and uses dynamically

updated HTML and CSS powered by jQuery, as well as the Moment.js library to work with date and time.
